PUWER compliance ... Pilz has got it covered!

Pilz Automation Ltd
Pilz House, Little
Colliers Field
Corby, Northants,
NN18 8TJ
United Kingdom
<http://www.pilz.co.uk>

Corby, 06.07.2018 - **The Provision and Use of Work Equipment Regulations - PUWER - aim to create a safe working environment for anyone who comes into contact with machinery and work equipment. Compliance with the Regulations is a legal requirement. Pilz Automation Technology has many years of experience in helping companies achieve PUWER compliance for plant and machinery. Along the way, they have developed a comprehensive range of resources and services all designed to make compliance as painless as possible!**

PUWER Website...

A dedicated PUWER Website - www.pilzpuwer.co.uk - offers detailed and industry-specific guidance to the Regulations and includes an **interactive machine** to show which Regulations are applied to your machinery. You can also download a sample of a Pilz PUWER inspection report to get an insight into the output of the company's experienced PUWER consultants.

Webinars ...

Pilz also run **free Webinars** regularly - recordings of the last sessions are available by clicking below or on request:

[Understanding PUWER - Regulations 1-11](#)

[Understanding PUWER - Regulations 12-24](#)

Training ...

Last but not least, If you'd prefer **face-to-face training**, Pilz Machinery Safety experts regularly run the **1-Day Course 'Provision and Use of Work Equipment Regulations'** either at their Corby training centre or at your premises.

For further information, visit www.pilzpuwer.co.uk, email puwer@pilz.co.uk or call 01536 460766.

Pilz - The Spirit of Safety

Pilz is a global supplier of products, systems and services for automation technology. As a pioneer of safe automation, Pilz creates safety for human, machine and environment. Founded in 1948, today the family business with its head office in Ostfildern is represented worldwide with 2500 employees in 42 subsidiaries and branches.

The technology leader offers complete automation solutions for Safety and Industrial Security on the machine. These include sensor, control and drive technology - as well as systems for industrial communication, diagnostics and visualisation. An international range of services with consulting, engineering and training completes the portfolio. Pilz solutions are used in many industries beyond mechanical engineering, such as intralogistics, packaging, railway technology, or the robotics sector for example.
